Dear Sirs,

We, the undersigned request that the acceptance criteria for accreditation to ISO TS16949:2002 is changed to permit component suppliers such as BF Component Solutions Ltd to seek accreditation.

TS16949:2002 expects all organisations in the supply chain to be accredited, BFCS is frequently asked by its automotive sector customers when it will gain accreditation to the standard. BFCS have told us that they will apply for accreditation when they are allowed and we would like to see them gain it.
